- Shona

PROFILE

Motivated and self-taught Web Developer with strong skills in front-end and back-end development. Experienced in building responsive websites and web applications using React, Next.js, Tailwind CSS, and Python. Passionate about problem-solving, clean design, and creating user-friendly digital solutions. Demonstrated ability through personal and freelance projects, with a strong foundation in HTML, CSS, JavaScript, and databases. Eager to grow within a professional development team while contributing creativity and technical expertise.

ACHIEVEMENTS

- Successfully developed and deployed a Parking Marketplace Web App with booking, payments, and reviews.
- Designed and launched a corporate website for Baker's Inn, including interactive features and responsive layouts.
- Created a personal portfolio website to showcase projects and skills, using React.js and Tailwind CSS.
- Automated payroll processes with a Python payslip generator that creates PDFs and emails them to employees.
- Built a job scraping tool in Python to collect and store real-time job listings in CSV format.
- Consistently delivered projects from concept to deployment using GitHub, Netlify, and Vercel.
